

INTRODUCING THE NORSHIELD NOR200

THE REVOLUTIONARY ELECTRIC SHALLOW FOUNDATION WEDGE BARRIER!

The vehicle barrier industry has entered an interesting stage in the last few years. We have seen a boon of innovation unlike any other in the history of our industry. This innovation has in some cases come up with new products that stray from old conventions. There are wild products hoping to spark a “new” way of providing perimeter vehicle security. We, at Norshield, are not completely ready to abandon the traditional design of a crash rated barrier. The innovative NOR200 is a hybrid type of evolution. The strengths of the old wedge barrier are built upon by improving and revolutionizing the design rather than totally abandoning this time tested concept. Introducing the NOR200, evolved to superiority!

THE NOR200 OUTSHINES ANY OTHER WEDGE BARRIER!

- ⊖ Unparalleled Operation (smooth, seamless, reliable)
- ⊖ Higher Level of Security – NO actuator outside of the unit
- ⊖ Industries ONLY available Self-Contained Wedge Design facilitating:
 - ⊖ Most Functional, Reliable barrier available – less issues after installation
 - ⊖ Improved Reliability
 - ⊖ Low Cost Installation
 - ⊖ Low Maintenance
- ⊖ Same Strength: Department of State K12 Crash Test Rating

Shallow Foundation Wedge Barrier

Hydraulic (DSC501)

Electric (NOR200)

Installation Time	2-3 Weeks	2-3 Days
General Barrier Price (w/like options)	\$39,000	\$53,490
Installation Total Cost	\$35,000	\$25,000
Preventative Maintenance 5 Year Cost	\$27,210	\$5,435
Total Cost: (over 10 years)	\$128,420	\$89,360
Warranty	1 year Manufacturers	1 year Electrical, 3 year Manufacturers

*all figures are estimates supported by independent test reports
**maintenance does not include barrier repair

JUST THE FACTS, YOU DECIDE!
